

Hire Minnesota's Veteran

Beyond the Yellow Ribbon

There are many unemployed Minnesota veterans. According to the Bureau of Labor Statistics, the national unemployment rate for veterans from the post-9/11 Gulf War was almost 12 percent, as of 2010. Minnesota Department of Employment and Economic Development reports that Minnesota's overall unemployment rate as of December 2011 was 5.7 percent.

An Interagency Military Employment Work Group was established in late spring 2011. Facilitated by the Minnesota National Guard's Yellow Ribbon Readiness Services, partners from more than 20 state, federal and local entities have aligned employment resources and identified a process for Servicemembers to find employment and for employers to find Servicemembers.

To kick start this employment process, 11 professionals traveled to Kuwait March 1-7, 2012, to prepare the 19 percent of the Minnesota National Guard's 1st Brigade Combat Team that face unemployment after their deployment.
